

Roche CP School Internet Safety Acceptable User Agreement

We will always have permission from an adult at school or at home before using the internet.

If we are ever harassed or bullied online, we must block the person and tell a trusted adult. Any form of bullying, harassment or unkindness is not acceptable.

The internet provides amazing opportunities for everyone; it helps us to learn, connect, create and play. In order to keep ourselves safe and happy online and make the digital world a positive experience for everyone, the School Council have developed an 'Acceptable User Agreement' for us all to follow. When devising this agreement, the school council have listened carefully to the views and ideas of pupils across the school based on what they have learnt in their internet safety lessons.

We will only be friends online with people who we know in person.

We will not share our personal information such as our full name, age, date of birth and address online.

We will make sure we have plenty of time away from our devices and have a healthy balance of on and off screen time.

We will use our skills to check information that we see online to make sure that it is trustworthy.

We will try our best to follow this Acceptable User Agreement

Signed.....

Pupil/ Parent or carer/ member of staff

If something upsets us online or makes us feel worried or scared, we will tell a trusted adult (watch Year 1's 'Funny in your Tummy' song on our school website)

We will always treat others online with kindness and respect.

We will always have permission from people in photos and videos before sharing them online and share with friends only.

We will only use our own passwords and not share our passwords online.

If we have an issue or concern about the school, we will speak directly to the class or headteacher rather than discussing it on social media .
